

Project Design Phase-II

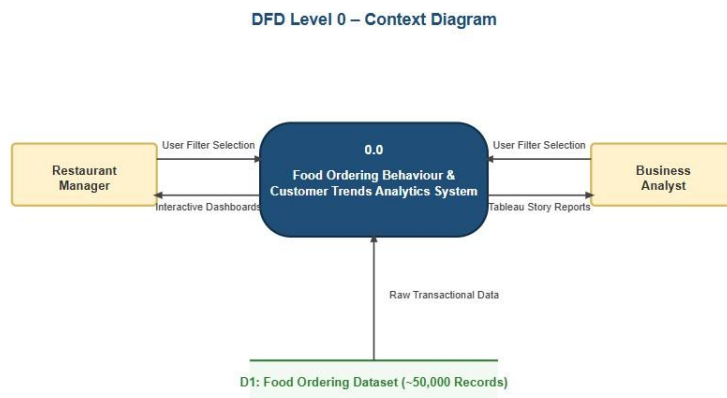

Data Flow Diagram & User Stories

Date	5 July 2026
Team ID	
Project Name	Food Ordering Behaviour and Consumer Trends
Maximum Marks	4 Marks

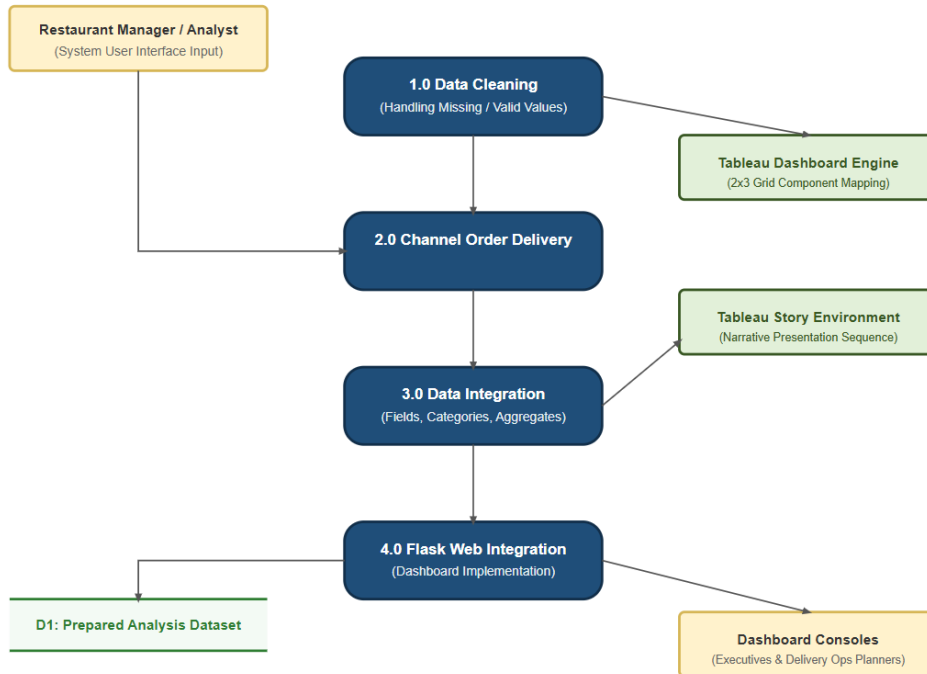

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example: [\(Simplified\)](#)

DFD Level 1 – Process Breakdown Flow

User Stories

User Type	Functional Requirement (Epic)	User Story No.	User Story / Task	Acceptance Criteria	Priority	Release
Customer	Food Ordering Analysis	USN-1	As a customer, I want to view food ordering trends so that I can understand popular cuisines and meal preferences.	Dashboard displays food ordering trends accurately.	High	Sprint-1
Restaurant Owner	Customer Insights	USN-2	As a restaurant owner, I want to analyze customer preferences by city and cuisine so that I can improve my business.	Filters update the dashboard with selected city and cuisine.	High	Sprint-1
Data Analyst	Data Visualization	USN-3	As a data analyst, I want interactive dashboards to analyze customer behavior and ordering patterns.	Dashboard provides interactive charts and filters.	High	Sprint-1
Business Manager	Performance Monitoring	USN-4	As a business manager, I want to view KPIs such as order value, ratings, and repeat orders to support decision-making.	KPIs are displayed correctly with visual insights.	Medium	Sprint-2
Administrator	Dashboard Publishing	USN-5	As an administrator, I want to publish the dashboard on Tableau Public so users can access it online.	Dashboard is successfully published and accessible through Tableau Public.	Medium	Sprint-2
