

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	5 July 2026
Team ID	
Project Name	Food Ordering Behaviour and Consumer Trends
Maximum Marks	4 Marks

Step-1: Team Gathering, Collaboration and Select the Problem Statement

1

Define your problem statement

What problem are you going to solve? Reformulate it as a clear and specific problem statement from the point of view of the user.

 10 minutes

Problem Statement

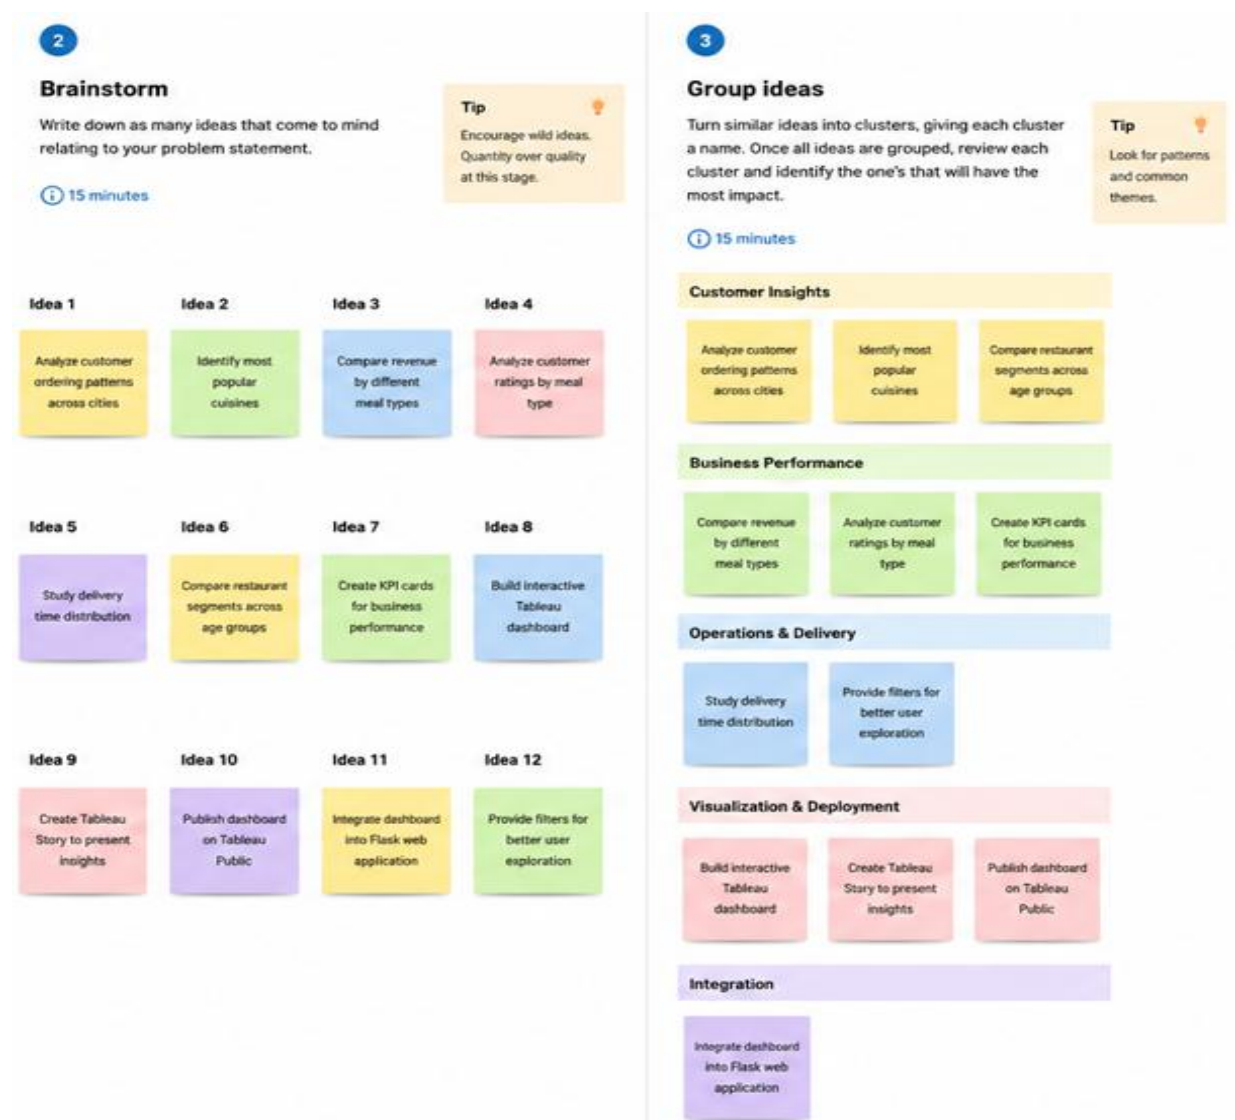

How can food ordering data be analyzed using Tableau to identify customer behaviour, cuisine preferences, delivery performance, and revenue trends, enabling data-driven business decisions?

Key points of understanding

- ☒ Customers want fast and reliable delivery
- ☒ Wide variety of cuisines and meal options
- ☒ Price and offers influence order decisions
- ☒ Service quality and ratings affect satisfaction
- ☒ Businesses need clear insights for data-driven decisions

Step-2: Brainstorm, Idea Listing and Grouping

Step-3: Idea Prioritization

4

Prioritize

You have short-listed the top ideas through clustering and now rank them based on impact and effort to pinpoint your solutions.

15 minutes

Tip

Focus on ideas with high impact and low effort for quick wins.
