

Project Design Phase-II Technology Stack (Architecture & Stack)

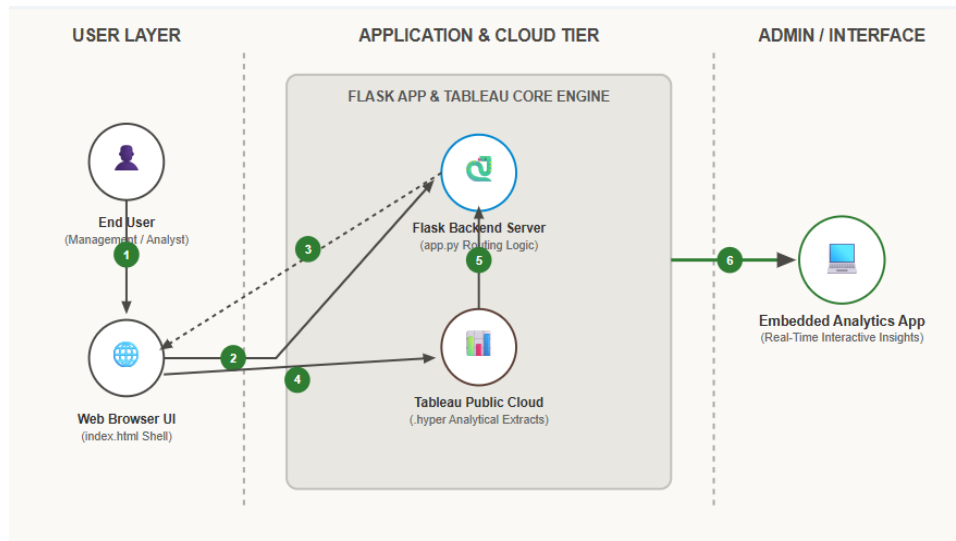

Date	5 July 2026
Team ID	
Project Name	Food Ordering Behaviour and Consumer Trends
Maximum Marks	4 Marks

Technical Architecture:

The Deliverable shall include the architectural diagram as below and the information as per the table1 & table 2

Example: Order processing during pandemics for offline mode

Reference: <https://developer.ibm.com/patterns/ai-powered-backend-system-for-order-processing-during-pandemics/>

Guidelines:

- Include all the processes (As an application logic / Technology Block)
- Provide infrastructural demarcation (Local / Cloud)
- Indicate external interfaces (third party API's etc.)
- Indicate Data Storage components / services
- Indicate interface to machine learning models (if applicable)

Table-1 : Components & Technologies:

S.No	Component	Description	Technology
1	User Interface	Interactive dashboard for data visualization	Tableau Public
2	Data Source	Food ordering dataset	CSV File
3	Data Preparation	Data cleaning and transformation	Tableau Prep / Tableau
4	Data Visualization	Charts, graphs, maps, and KPIs	Tableau Desktop
5	Dashboard	Interactive dashboard with filters	Tableau Dashboard
6	Story	Presentation of analytical insights	Tableau Story
7	Database	Structured dataset	CSV
8	File Storage	Project files and datasets	GitHub Repository
9	Cloud Platform	Online dashboard publishing	Tableau Public
10	Analytics Engine	Data analysis and visualization	Tableau Business Intelligence Engine
11	Development Environment	Dashboard development and deployment	Tableau Desktop & Tableau Public

Table-2: Application Characteristics:

S.No	Characteristics	Description	Technology
1	Open-Source Tools	Uses open-source tools for data analysis and visualization	Tableau Public, CSV
2	Security	Data is securely stored and shared through Tableau Public	HTTPS, Tableau Public
3	Scalable Architecture	Supports analysis of large datasets with interactive dashboards	Tableau Business Intelligence Engine
4	Availability	Dashboard is accessible online anytime through Tableau Public	Tableau Public Cloud
5	Performance	Fast dashboard loading using optimized data and filters	Tableau Data Extracts (.hyper), Tableau Caching
